

First Name: S Dinesh

Email: dineshkumarnavarasam@gmail.com

Last Name: Kumar

Phone (IND): 9524060963

My Portfolio: - 3.2 Years

I've created my portfolio. Link: <https://dineshthalapathy01.github.io/my-portfolio/>

Professional Summary:

Full Stack Java Developer with 3.4+ years of professional experience specializing in designing, developing, and deploying enterprise and high-security government web applications. Proficient in Java (8/17), Spring Boot, Microservices, and Angular (16/19/20) architectures. Demonstrated expertise in implementing critical security frameworks (Spring Security, JWT, RBAC), third-party integrations (Aadhaar e-KYC, Biometrics, Payment Gateways), and cloud deployments (GCP). Proven track record of optimizing database performance in PostgreSQL and collaborating within Agile cross-functional teams to deliver scalable, production-live software solutions.

Technical Skills:

- **Backend Development:** Java 8/17, Spring Boot, Spring MVC, Microservices, REST APIs, Hibernate, JPA, Maven
- **Frontend Development:** Angular 16/19/20, TypeScript, JavaScript, HTML5, CSS3, Bootstrap, Thymeleaf
- **Databases:** PostgreSQL, MySQL, Oracle
- **Security & Authentication:** Spring Security, JWT (Access/Refresh Tokens), OAuth2, RBAC, Encryption/Decryption, CAPTCHA
- **Cloud & DevOps:** Google Cloud Platform (GCP), AWS (Essentials), Docker, Git, GitHub, Jenkins, CI/CD
- **Tools & Testing:** IntelliJ IDEA, VS Code, Postman, STS, JUnit, Selenium

Talent Next Certified Skill:

Java Microservices, Relational Databases, AWS Technical Essentials, Programming Fundamentals, GitHub Copilot Essentials

Project Experience Summary:

- **Academic Project:** - 2021 – 2022

➤ Application: **SMART TRAVELLERS APP** developed using flutter (Dart) in 2021.

Key skills: Flutter, Dart, Firebase, Google Cloud.

Responsibilities:

- Developed a cross-platform mobile application utilizing Flutter, Dart, Firebase, and Google Cloud services for automated travel planning **Paper Publication:** IJSART – <https://ijsart.com/smart-travelers-app-using-flutter-52296>

- **MPHASIS THE NEXT APPLIED - APR 2023 – DEC 2024 | DLF IT PARK, Chennai, TN**

Designation: - Software Engineer, **TRAINING PERIOD** (6 Months)

Duration: - 12th April 2023 – 30th September 2023

Role: JAVA Full Stack Developer

PROJECTS WORKED:

➤ Application: **REGRESSION TESTING TOOL (FEDEX) - March 2024 – July 2024**

Responsibilities:

- Developed a web-based regression testing management application using Java, HTML, CSS, and JavaScript.
- Implemented complex file-tracking features for copying, retrieving, and logging testing script targets.
- Built automated, scheduled background tasks for batch data insertion and secondary entity processing.
- Developed custom Excel export utilities complete with conditional cell formatting and color-coded test result indicators.

➤ Application: **CHATBOT APPLICATION (FEDEX) - June 2024 – September 2024**

Responsibilities:

- Designed and built an internal web chatbot using Java, Thymeleaf, HTML, CSS, and JavaScript.
- Implemented dynamic content moderation algorithms to filter inputs and maintain user interaction standards.
- Built a URL shortening service to generate clean, trackable redirects within the chat interface.

- **Eagle Software India Private Limited | Eagle Tower Chennai, TN**

JAVA Full Stack Developer | January 2025 – Present

➤ Application: **Bihar Building & Other Construction Workers Welfare Board (Gov of BIHAR) - Jan 2025 – May 2026**

LIVE – <https://bocwboard.bihar.gov.in/> Client Location: Patna, Bihar (Remote),

Responsibilities:

- Contributed to a massive government welfare platform serving 35+ lakh registered workers across Bihar state utilizing Angular 16, Spring Boot, and PostgreSQL.
- Built and optimized modular workflows for Profile Updates, Application Renewals, dynamic Content Management Systems (CMS), and Document Management Systems (DMS) with safe PostgreSQL file storage.
- Implemented full hardware-level **Aadhaar Biometric Authentication – EKYC, OTP, FRS** by integrating RD Services for Mantra and Morpho devices alongside handling UIDAI vendor API responses.

- Enforced robust application security parameters via Spring Security, including CAPTCHA validation, payload encryption/decryption, and JWT refresh token layers.
- Optimized database performance by restructuring data tables using primary key mappings, localized indexing, and query tuning.

➤ Application: **TAMILNADU AND CIVIL SUPPLIES CORPORATION (TNCSC) - July 2025 – Present**

Application Status: **Partially LIVE** - <https://e2e-tnsc.com/login>

(User Management & Access Control Modules in Production), Client Name: **Gov of TN**

Responsibilities:

- Core development resource managing enterprise modules for 16,000+ employees across regional and head offices using Java 17, Spring Boot, Microservices, Angular 19/20, and PostgreSQL on GCP.
- Developed and deployed core User Management, Menu Management, and **Role Menu Mapping** modules using an advanced **RBAC architecture**.
- Implemented a Gateway-based authentication architecture separating the **TNCSC Gateway Service** from Core Application Services using **Spring Security, JWT**, and custom authorization filters.
- Engineered a dynamic, **mid-session Role Switching mechanism** allowing multi-role employees to securely change authorization contexts without logging out.
- Built a **comprehensive Workflow Configuration Master** to enable dynamic, configurable multi-level approval hierarchies (Regional Office \ Head Office \ Accounts Section).
- Designed the Loan Management Module managing Refundable (up to 75% of savings) and Non-Refundable loans, writing backend financial logic for eligibility calculations and payroll integration.
- Integrated **AADHAAR OTP VERIFICATION & E-KYC VALIDATION** to enforce identity checks for employee self-service workflows.
- Authored **secure backend validation** systems preventing frontend-level value manipulation for critical financial distributions (EDLI/FBF insurance modules).

Education Details:

- B.E. in Electrical and Electronics Engineering (EEE) | 2018 – 2022, Nandha Engineering College (Anna University) | CGPA: 8.59
- Higher Secondary Certificate (HSC) | 2018, Navarasam Matriculation Higher Secondary School | Percentage: 62%
- Secondary School Leaving Certificate (SSLC) | 2016, Navarasam Matriculation Higher Secondary School | Percentage: 84%
